AFFAIRS OF THE RAILWAYS.

Rumor that the Big Four Will Purchase the

Terre Haute & Alton Line. A telegram from New York says it is annonneed that the "Big Four"-the Cleveland, Chicago, Cincinnati & St. Louis Railroad Company-is to purchase the Alton & Terre Haute railroad at the rumored price of \$10,000,000. A meeting of the Alton & Terre Haute stockholders will be called to ratify the sale. The St. Louis, Alton & Terre Haute owns a main line from Terre Haute, Ind., to East St. Louis, 193 miles; proprietary line, East St. Louis to Belleville, 14; leases-Belleville & Southern Illi-Belleville to Du Quoin, 111. Belleville & Eldorado, from Quoin to Eldorado, 50; Belle-& Carondelet, from Belleville to East Carondelet, 17; St. Lonis Southern. Pinckneyville to Carbondale, Ill., 33; Car-

ndale & Shawneetown, Carbondale to Marion, 18; Chicago, St. Louis & Paducah, Marion to Paducah, and branch, 54: total, 436 miles, of which the company operates only 243 miles, the main line, 193 miles, being leased to the Big Four. The rent received for main line s \$450,000, unless the gross earnings exceed \$1,750,000 in any year ending Oct. 31, and then 20 per cent. is to be paid of the excess of gross earnings over \$1,750,000. Whether the sale includes the operating of the leased lines is not stated. The Big Four people really need only the main line from Torre Houte to St. Louis.

Performance of the Strong Locomotive. Thursday night last the Strong locomo tive, hauling seven cars, made the run from Rushville to the Belt road. Indianapolis in thirty-four minutes. The distance is thirty-seven miles. Between the points named the grades are slight and the track straight. At the request of the editor of

the Railroad Gazette, one of the officials of the Cincinnati, Hamilton & Dayton road gives for publication a lengthy report of the performance of this locomotive, which has been running over the C., H. & D. road between Cincinnati and Indianapolis for three months. The official states: "I have ridden on the Strong engine, pulling seven cars, at the rate of a mile in forty-two seconds, for some distance. The grade was not absolutely level, but from ten to lifteen feet per mile up grade. We made one mile that I remember, on practically a level grade, or slightly down hill, as near as I could get at it with a stop-watch, in forty seconds. have been on this engine when she ran up hill eight miles with nine heavy vestibule cars, making fair sched-

ule time, and arriving at the top of the hill blowing off steam and carrying a steam pressure of 170 pounds to the square inch, and she did this, as near as we can measure with ordinary railroad appliances for measuring fuel, with just one-third less coal than would have been consumed by the regular engine belonging on this run. It would be an impossibility to make the very high speed accomplished by this engine with the ordinary valve gear, as you could not get rid of the excessive compression and back pressure with the early points of cut-off which would be necessary to retain the steam supply. If the public de-mands the high speed, it comes down to the simple question of getting rid of your steam, which we cannot do with the ordinary valves. We have had this engine now about ninety days, and have tested it very thoroughly up and down hill, running it over very hilly portions of the road, and also on long stretches of dead level. About the only trouble we have had so far is to keep the engineer from running away from

W. C. Irwin, chief engineer of the Big Four lines, who has been south for a couple of weeks, returned yesterday, much improved in health. The official statement shows that the net

Superintendent Lamport, of the Cincinnati, Wabash & Michigan road, were in the city yesterday on official business. The double track of the Belt road will be completed to Brightwood by Wednesday next. The crossing of the track of the Springfield division of the Big Four was put in yesterday.

W. B. Stimson has been appointed super-intendent of the Grand Rapids & Indiana road, succeeding the late J. M. Metheany. Mr. Stimson is promoted from roadmaster

of the northern division. The Cincinnati, Hamilton & Dayton and roads have postponed the time for chang-

ing their passenger train schedule from the 4th to the 11th of this month. The Terre Haute car-works have commenced on a contract to build 2,000 ore cars for the Milwaukee, Lake Shore & Western

road. The cars are of a very substantial build, and will carry 60,000 pounds. The grading of the extension of the Cincinnati, Wabash & Michigan road, from Anderson to Rushville, will commence on the 12th of this month, and it is expected

that the link will be completed by Oct. 1. It is intimated that Col. Wm. Shaw is to be given a more important position on the Chicago, Burlington & Quincy road. The Colonel certainty is deserving of promotion if hard work for a road entitles an employe

The securities and stock of the Louisville, New Albany & Chicago road continue to rise, and are in demand by strong people at top prices. Most of the purchases, seemingly, are made by Boston capitalists, who have great confidence in the present management of the property.

About a month ago rates on iron shipped west from Pittsburg were reduced 20 per cent., and on Monday next a similar reduction goes into effect out of Pittsburg on iron rates east-bound. These rates will be equalized in Central Traffic and Trunkline Association territory.

An important new route between Boston and Chicago has been formed by the following roads: The Boston & Maine, the Boston & Lowell, the Maine Central, the Canadian Pacific and the Wabash from Detroit. Solid vestibule trains are to be put on between Boston and Chicago over this route June 1, it is stated

General Manager Moore, of the Cincinnati, Sandusky & Cleveland road, says that all reports that the road or any part of it has been secured by the Big Four people, is without foundation. His statements regarding the matter do not correspond with the interviews published in the Boston papers with President Farlow.

J. F. Goddard, third vice-president of the Atchison, Topeka & Santa Fe, has resigned. It is understood that Mr. Goddard's relations with the new freight manager were not pleasant, the latter re-fusing to recognize his authority in the ab-sence of the president. Not being willing to continue in his position under such cir-cumstances, Mr. Goddard resigned.

The capitalists who own the Cincinnati, Hamilton & Dayton and the Wheeling & Lake Erie roads have proposed to the Erie people to build forty miles of new road, which, in connection with the New York, Pennsylvania & Ohio road, would make a very direct new line between Cleveland and Cincinnati. Surveys for the proposed line have been completed, and it is esti-mated that the necessary link can be built for \$1,200,000.

There are now 725 miles of main line in the Lake Erie & Western system, and no part of it is bonded for over \$10,000 per mile. The management steers clear of all mile. The management steers clear of all associations, works with any road which chooses to work with it, and certainly has a bright outlook. The fact that more than par was offered for the new issue of bonds on the Fort Wayne, Cincinnati & Louisville road is good evidence that Eastern capitalists have great confidence in the officers who manage the lines.

Wm. R. McKeen, president of the Vandalia lines, is paying but little attention to detail matters, turning most of his cares of this character over to John Williams, the general manager, who carries them with ease and a good deal of ability. Mr. Mc-Keen now spends two hours in his bank, three hours in his railroad office, and puts in the rest of the day at his farm admiring his blooded stock, he now having in the neighborhood of 100 animals. A number of his horses are difficult to excel in beauty or speed.

The Chicago Journal says: "The resigna-tion of General Manager Ripley, following so closely on the heels of the resignations of General Freight Agent Morton and Vicepresident Stone, has given rise, this morning, to all manner of rumors. It is only known positively that Vice-president Harris, of the Burlington & Northern, will temporarily fill both Mr. Stone's and Mr. Ripley's positions. These combined duties will, however, be too ardnous for one man, and rumor has already settled future pro-

Kingsbury will be selected as his successor. Mr. Kingsbury went off of the Western

lines but a few years ago. A party of distinguished railway officials registered at the Denison House last night. They proved to be Panhandle division freight agents, who are on a tour of inspection of the various Panhandle branches. On last Monday morning they started from Pittsburg and went down the Muskingum Valley to Cincinnati; from Cincinnati to Columbus, and from that place came here. The party consists of D. T. McCabe, assistant general freight agent; James Means, division freight agent, Pittsburg; Frank Wilkinson, general freight agent of the C. & M. V.; George W. Da-vis, division freight agent, Richmond, Ind.; R. W. Geiger, general freight agent J., M & I., Louisville; S. F. Gray, division freight agent, Indianapolis: James D. Hill, genera Western freight agent, Chicago, E. F. Fuller, division freight agent. Cincinnati. They are on a tour of inspection and will leave here to-night for Louisville, which city they will leave to-morrow night, returning here to go over the I. & V. to Vin-Cennes, thence to Logansport, thence to Hamilton, O., and from there to Bradford, from which point they will go to Chicago, which will finish the trip.

AMUSEMENT NOTES.

No better Irish drama has ever been seen on the local stage than the "Fairies' Well." now running at English's Opera-house, and the performance is all the more interesting for the reason the company presenting the play is above the average of its class. The numerous Irish songs, dances and the ex-cellent scenic and mechanical effects combine to make the piece very entertaining throughout, and the audience last night showed its approval by frequent and hearty applause. Carroll Johnson makes a capital Irish hero, and his songs are a pleasing part of the performance. The matinee this afternoon and the presentation to-night will close the engagement. The last performances of "A Clean Sweep" will be given this afternoon and to-night

at the Park Theater. Hamlin's farce-comedy company, booked for a two nights' engagement at English's Opera-house the first of the week, is spoken of as an excellent combination. "The Fakir" will be given by it Monday night. The company includes Flora Moore, Edward Lee, William Jerome, Marie Cahill. and other good specialty performers. Meg Merrilies, the character in which Mme. Janauschek will appear at the Grand Opera-house Tuesday night, is one calling for an artist of great force. It was one of Charlotte Cushman's successful roles, and Mme. Janauschek is a worthy successor to that great actress. The latter has a power

strong in such parts. Wednesday night she will appear as Lady Macbeth.

Chocolate as a Beverage. The use of chocolate as a beverage has vastly increased in this country during the last two or three years; and among the various brands which have been presented to the public, none seem to have met with greater favor from connoisseurs than the famous Chocolate Menier. The manu-

facturers rank among the largest in the world, and it is claimed that their sales are also among the "hig things" in commerce, being about 30,000,000 of pounds yearly, which would (if all consumed in this country) give something like half a pound each to every man, woman and child, white, black and parti-colored (including the babics) throughout the United States. to continue in his position under such circumstances, Mr. Goddard resigned.

General Manager Greene, General Superintendent Peck and the several division superintendents of the Big Four lines were in conference most of the day yesterday, arranging time-tables, etc. Mr. Greene will remain until 3 p. teer at the stockyards yesterday. It had been consigned to a local butcher. The Society of Indiana Florists has ssued the premium list for its fourth annual chrysanthemum show. It will begin at Tomlinson Hall Nov. 11 and continue four days, closing on the 15th.

James N. Fowler, who pleaded guilty to a charge of perjury, and was sentenced on Wednesday to the Prison North for one year, was taken to Michigan City yesterday by United States Marshal Dunlap.

Personal and Society. Mr. and Mrs. W. L. Elder are in Chicago. Mr. James Joseph. of Chicago, is the guest of Mr. John H. Ohr's family for a few days.

Miss Mary Stowell will give a piano recital this afternoon at Mrs. Flora M. Hunter's, assisted by Mrs. Aquilla Jones, jr. Miss Maud Latta, of Leavenworth, Kan., who has been visiting friends here for several weeks, will leave to-day for Peoria to make a visit.

Hanford W. Edson, son of Rev. H. A. Ed-

son, who will graduate at Williams College in June, has received the appointment of professor of mathematics and English literature in an institution at Constantinople. Invitations have been sent out by the Denny, C. Van Camp, J. M. Shaw, T. A. Morris, Mrs. F. W. Chislett and Mrs. F. A. McBride, for the reception to be tendered to Rev. Joseph A. Milburn on Monday even-

ing. May 5, at the parlors of the Second Presbyterian Church. Mr. Paul Bahr has sent out invitations for a piano recital to be given by Miss Emma Kistner, Wednesday evening, May 7. at Bryant & Dierdorff's rooms. Miss histner will be assisted by Mrs. Rose C. Bailey, Mr. M. H. Spades and two quartets, Miss Ethel Fleming, Miss Bertha Kahn, Misses Tillie and Anna Sondermann, Mrs. Jennie Suffern-Case, Misses Belle Reger, Lucie Hamilton, and Miss Kistner will play. Miss Kistner's solos are to be "Grand March," by Albert Parsons; "Rigoletto," by Liszt; "Second Mazurka, Op. 54," Godard; "Weber's Invitation to

Dance," arranged by Tausig, and "Venezia e Napoli Gondoliera," by Liszt. Misses Minnie and Florence Coffin gave a 4-o'clock tea yesterday afternoon in honor of their cousin, Miss Nellie Clark, of Richmond. Miss Coffin and Miss Clark re-ceived the guests and Miss Florence brewed the tea, which was served by Miss Annie Shuler. The table was arranged with appointments of dainty linen and rare china and silver. Choice flowers were tastefully placed, and the gathering of about forty young people introduced Miss Clark to one of the pleasant coteries of young people. Among the guests were Mrs. Ernest Wiles, Mrs. W. H. Coleman, Miss Malott, Miss Vajen, Miss Butler, Miss Hord, Miss Stella Wiles, Misses Mary and Adele Wallick, Misses Grace and Kate

The gayly moving throng of children belonging to the juvenile classes oc-occupied the floor from palf-past 7 till half-past 9 o'clock. They danced the Lancers, Berlin, Brenneke's parlor quadrille, Le Reve, Saratoga Lancers and Fascination waltz. These were followed by the "Cachuca," danced by Misses Alma Hærte, Ada C. Fahnley, Marie Rich and Eloise Morton. dressed in rich Spanish costumes. The Sailor's Hornpipe was danced by Miss Charlotte Dering and Master Willie Morrison, in white sailor suits. The Highland Fling was given by Miss Elizabeth Lodge McKee, a dainty little maid of five years, dressed in pink silk accordion-plaited gown. The dances were so admirably performed that a repetition was demanded of each. The fivestep Yorke, to the music of Barclay Walker's new composition, "Hazel Yorke," was

> CULLINGS FROM THE COURTS. A Question as to Whether a Drinker or Foam

Reduced the Beer. Judge Irvin was called upon to decide peculiar case yesterday, in the case of the State against William Schofield, indicted for selling liquor on Sunday. The evidence showed that the defendant, who is a bartender for Benjamin Kistner, sold a glass of beer to Joseph Beerbauer on a Sunday in last October, and received the pay for it. Just as Beerbauer was in the act of raising the glass to his lips two officers walked in, and Schofield, catching the glass, concealed it behind the bar. One of the officers testified that when he saw the beer in Schofield's hand the glass was only two-thirds filled. Schofield was put on the stand and stated that Beerbauer had not tasted the liquor before the officers came in. Mr. Kistner testified as an expert on beer-drawing and said that "when a bartender is on the look-out for officers and is drawing fresh beer in a hurry about two-thirds of the glass is filled with beer and the rest with foam." The defense claimed there was no sale, but the State held that the statutes provided a fine for either selling or giving away intoxicating liquor on Sunday that is to be drank as a beverage, and Major Mitchell held that it was no fault of Beerbauer's that he did not drink the liquor that he had bought. Judge Irvin found against Schofield and finded him \$25, with costs.

Dispute Arising Out of an Estate. Harry Bowser, as the administrator of Mary Mattler's estate, brought suit before Judge Howland yesterday against Stephen Mattler for \$15,000 damages. Mrs. Mattler died leaving an estate of \$10,000 to her two sons, Stephen and Frank, a daughter, Mrs. Mary Werglain, and to the children of two other sons. Peter and John Mattler. It is charged in the administrator's complaint that Stephen Mattler converted the entire estate to his own use, and Mr. Bowser asks for an equal settlement for the other heirs. Mr. Mattler claims that his mother intended by should have the whole estate, but the complaint showed yesterday that he had recognized the claims of the other heirs by paying \$1,200 to his sister at one

Postal and Revenue Offenses. Anderson Beasley, of Trinity Springs, Martin county, and Charles N. Hannah. General McDowell and Jos. Vincent, of Petersburg. Pike county, were arrested vesterday by Deputy Marshal Mounts, on charges of violating the internal-revenue laws. They gave bail in \$200 each and were released. Deputy Mounts also arrested Ferdinand Schneider, sheriff of Dubois county, on a charge of violating the postal laws. Schneider's offense was opening a letter addressed to a prisoner confined in

the Dubois county jail. There Was No Assault. Roland Evans, charged with assault and battery on William F. Dlasdel, was acquitted in the Criminal Court yesterday. Dlasdel claimed he presented a bill for \$5.50 from Harry Walker to Evans, when the latter, enatching it from his hand, assaulted him. The testimony showed, however, that Evans simply asked the prose-cuting witness for the bill, and the latter

gave it to him at once. Fined in the Federal Court. Ed G. Lemen, of South Bend, indicted for violating the postal laws, pleaded guilty in the federal court yesterday, and was fined \$100, with costs, which he paid. Lemen's offense was sending circulars, advertising a lottery, through the mails. Joseph Oker, of Mount Carmel, pleaded guilty to violating the internal-revenue laws, and was fined \$10, with costs, which he paid.

Notes from the Dockets. The report in an afternoon paper that there has been a compromise between the trustees of the estate of Mrs. Elizabeth B. Fletcher, and creditors of the Fletcher & Sharpe Trust relative to the suits brought by the latter and the injunction suit of the trustees is untrue. Some of the judgment creditors have disposed of their claims to outside parties, but the cases in court remain as they were.

The Superior Court judges will sit in general term Tuesday next, instead of Monday, as was expected.

SUPREME COURT DECISIONS. 14206. Sinker, Davis & Co. vs. Willard Kidder. Marion S. C. Affirmed. Berkshire. .- A covenant of warranty executed to a firm is with each partner, as the owner of the whole and not as the owner of a molety. 2. Where a boiler in a mill exploded, in an action against the vendor one element of the measure of damages is the rental value of the mill during the time it remained idle on account of the explosion. Such proceedings were had as that the alley was ordered vacated, and appellant was assessed with \$500 benefits, which it paid. There was no mention of the proposition in such proceedings. Appellant paved the strip of ground it had offered to the city as an approach to its depot. Appellee is an abutting lessee to this strip of ground, and asks that appellant be enjoined from erecting a fence along the boundary of the strip of ground, as it would deprive him of egress and ingress. The right of action on the note having existed without a demand, and twenty years having intervened, it is barred. If a demand is a condition precedent it must be made within the period of limitation. 14522. Hiram Harvey vs. Daniel P. Baldwin. Cass C. C. Affirmed conditionally. Elliot J .- An unconditional promise to pay attorneys' fees is valid. As the note provides for the payment of attorneys' fees it was enough to allege the breach of the contract and state the damages generally. There was no error in refusing to permit appellant to approve that appellee was an attorney and competent to prosecute the action himself. The fact that appellee assisted in the prosecution would not diminish the compensation of the attorney employed. It was error to refuse to allow appellant to prove that the attorney employed by appellee had agreed to receive one-fourth of the attorneys' fees. The holder of the note can only recover what he agrees to pay his attorneys.

week's issue: It is the "cream-skimmer" who is unfellow-shiped, and who is directly or indirectly re-

sponsible for all those "troubles" that grow out of independency. Once "stars," men speedily become counets, sweeping in irregular orbits, through all systems—the most beautiful, but altogether the most useless objects in the heavens. "They tarry but a day." They plan only for the present. Conference, seminary, university endowment, city evangelization—the abiding and slow-growing interests of the church—they look slow-growing interests of the church—they look at as the tourist looks at Melrose Abbey; but with only a fraction of the interest, and with the same sense of alienation, irresponsibility and otherwhereness. So far as they are concerned, our connectional interests are naught. They are congregational ministers. They negotiate. The bishop, as a matter of form, confirms the contract. Practically, paster and congregation are independent. They toss aside ritual and rules. They are a law unto themselves. They demoralize are a law unto themselves. They demoralize the discipline of pulpit and pew, breed discon-tent and insubordination; and, discrediting the regular agencies of church-work, hinder our city growth, and imperil our itinerant system. If this is harmful, it is unnecessary, and should come to a speedy and perpetual end.

The Doctor is not opposed to the transfer system when administered in the spirit of the discipline of the church, for in a preceding paragraph he says: "They are not only necessary for the good of the work, but for the development of the connectional as distinguished from the conference spirit." He means and says in substance that transfers should be made only for the good of the church, and that by the appointing power, as all other regular appointments are made, and not at the caprice f congregations or ministerial stars (?). Dr. Moore is right, and we commend him to all Methodists who love a man who is not afraid to say what he thinks when it is right. Albeit we know of some churches in the connection that have had "creamskimmers" upon them until they are blue. Not a few of the Doctor's comets have wonderful nebulosity, but when it follows its nucleus to other regions, the little old stars may be seen in the firmament of the church reflecting their borrowed rays just as they did before the advent of the comet. Farm Notes. I am a firm believer that more loss has been sustained to the stock farmers in Wisconsin in using immature sires than from any other cause.—A. J. Phillips, West Sa-

The cabbage delights in having the so stirred. The plants grow rapidly when the hoe or cultavator is frequently used. Not only should they be well-cultivated, bu should have an abundance of manure. The animal or herd of animals should receive the first award at a fair or exhibition which the person making the award would prefer to buy if he desired them for the purpose for which they were presented. Many city people do not know really what good sweet butter is, as many coun-

try people think an oyster is an oyster any way, and do not know what a nice frest oyster is .- J. B. Gibson, Mount Holly, Vt. In scarlet fever the skin should be daily rubbed with carbolic acid (one drachm) and vaseline (five ounces.) This will not only relieve the itching, but disinfect the skin and thus prevent the air from being contaminated with scales and exhalations.

If farmers would take one good breed of fowls and carefully study their characteristics, they would make double the profit than if they keep trying to originate some new breed. It sounds nice to hear yourself spoken of as the originator of some new and valuable breed, but very few ever succeed in starting a variety of fowls that ever amount to anything.
